

Online Store

Classroom Connect offers our members the opportunity to buy products from our online Store. Like other retailers and direct marketers, we record information about such purchases. When you buy from us online, our system automatically gathers purchase data, and we also record information about purchases made through our telemarketing, mail order, and other marketing operations. We may review these statistics to decide what kinds of products and services appeal most to our members as a group and improve our offerings. We give you the option to choose between online and offline purchase options. Product ordering is only intended to be by teachers, administrators, and interested parents and is not intended for children or K-12 students. If you choose to order offline, we first require you to submit online your zip or postal code and U.S. state (if applicable) so that we can calculate your sales tax and shipping and handling. Then, we ask that you print out an order form which requests payment information, including credit card and expiration date, purchase order, and checking account. We also ask for your billing and shipping information, which includes name, title, school name, address, email and phone number. This information is only used for the purpose of completing your order.

If you order online, we require your billing information exactly as it appears on your credit card statement so that we can process your order. Online orders also require your name, address, phone number, and email. Email is required so that we can send you a confirmation of your order. Once again, the information you provide is used solely for the purpose of completing your order.
